

The K-LOVE radio station provides an invaluable service to us and our 4 teenagers here in Collierville via stations 94.7, 94.9, and 105.3. Our family relies on this station as our primary source of information and entertainment. If our K-LOVE station was replaced by an LPRM broadcaster providing other programming, we would miss all of our daily news information and local notices. K-LOVE absolutely serves the public interest in our area by providing notice of non-profit events, emergency needs of local citizens, and a positive, encouraging entertainment choice for youth and adults that is COMPLETELY family-oriented and free of distasteful materials.
